

SPACE FRAME - STEEL STRUCTURE

WE CARE ABOUT DETAILS

ABOUT US

Maz-industries has started in year 2006 by MAZZAHI brothers (eng.tamer el mazzahi and eng. Hesham el mazzahi).

Since then Maz-industries has been the leader in engineering, design Fabrication and installation of hi-tech steel structures, sky light, domes Canopies, tensile fabric structures, pre-engineered steel buildings using Built-up sections or hot rolled sections and finally space frame systems.

Maz-industries has the first factory in EGYPT for manufacturing of space frame systems 100% locally using Egyptian standard (ECP) or American standard (ASTM) in design, production, packing and installation .

By time Maz-industries has developed its experience to meet the needs of the local market and gives a valuable engineering solutions design, fabrication and installation of wide variety of projects with complex forms with high quality and low cost due to our great experience just to satisfy our client.

Maz-industries provides their clients with the comfort and several advantages through out light weight structures, cost less, low maintenance Flexible designs and high finish with painting or powder coating

AS WE CARE ABOUT DETAILS

SUMMARY OF OUR COMPANY

Our company have started in 2006 to be the first factory in Egypt for manufacturing of steel space frame systems locally (three dimensional truss)

That combatable for irregular shapes and wide span areas.

Also we are pioneers in the manufacturing of pre-engineered steel buildings,

skylight, domes, canopies, pergola and sunshades.

Through out these 11 years MAZZAHI brothers

(eng.tamer el mazzahi and Eng. Hesham el mazzahi) have satisfied the needs of unusual requirements of

the market by construction of special projects such as airports, conference halls

Sports halls, hospitals, mega malls and beyond.

We design, engineer, fabricate, deliver, install and the client enjoy

CONCEPT

As a pioneer company in manufacturing of :

Space frame systems

Wide span hi-tech steel structure

Pre-engineered steel buildings

Skylight and domes

Maz-industries is working hard to achieve highest level of perfection and to be the most trustable company in our market by improving our skills,expertise,specifications and high quality in all production steps.

Due to this vision our mission becomes as follow:

Accuracy is a must not a need

On time with safety and high quality

Service and co-ordination with other items

Quick response

Wide range of steel products

Satisfaction of the client

SERVICES

Maz-industries help architects to make their imaginations become true by offering high quality designs to satisfy their requirements in which the end product is high quality and with good look.

Maz-industries offer a lot of solutions for covering the large free span areas with ultra-modern and advanced hi-tech structure systems and our scope of work is:

Design

Supply

Erection

Co ordination with other activities related to our

Activities to ensure the completion of the project
